

AUTO RACING

The payoff on a winning selection varies according to the odds.

EXAMPLE:

DRIVER	ODDS
Jimmie Johnson	6 - 1
Kyle Busch	8 - 1
Kasey Kahne	50 - 1
Ryan Newman	100 - 1

To wager on auto racing, you typically pick the winner of the race.

Typically, 20-30 drivers will be listed along with a "field" (all others).

For example, if the player wagers \$10 on Kyle Busch and he wins the race, the player wins \$80 plus their \$10 back totaling \$90.

PROPOSITION WAGERS:

DRIVER	ODDS
Jimmie Johnson	- 130
Kyle Busch	+ 110

Auto racing match-ups pit two drivers against each other in a head-to-head wager. The driver with the better finish in the race wins the match-up. Sometimes multiple drivers are listed in a group where the best finish in the group wins the wager.

In the example, a wager on Jimmie Johnson for \$13 wins \$10, returning \$23. Wagering \$10 on Kyle Busch pays \$11 plus the wagered \$10 back for a total of \$21.

Other props may also be posted, such as the over/under on the number of cautions in the race or which car manufacturer wins.

Lines can be found on other series and open wheel races.
